

**100 % NATURAL SNACKS**

## Brief History:

In 2000, a group of passionate young entrepreneurs founded [REDACTED] Co. upon the belief that by sharing with the world the ancestral recipes of Ecuador's all-natural fruit and vegetable snacks, we could give people a taste of our land and a better-for-you treat.

## Our process - simply indeed:

Our plant is strategically located close to the farms that supply only the best and freshest fruits and vegetables. Here we crisp them to perfection applying rigorous quality controls and using the latest frying and packing technology.
